## YALE RESOURCES

# A NEW CAFE CLOSE TO THE HOUSE

*Opened just a month ago, the brand new Steep Cafe sandwiched between the Kline Biology Tower & the Yale Science Building is the closest cafe to 254 Prospect St.*

Steep, Coffee & Tea is located in a new and modern space that's light-filled and welcoming. Always on offer are freshly roasted beans and single-origin coffee, organic teas, kombucha on tap, blended smoothies, cold-pressed juices, sandwiches made to order and locally baked pastries.

Steep is open from 8:00 am to 3:00 pm weekdays with 24-hour self-checkout technology via grab and go coolers and a Stumptown Coffee bean to cup machine.

The area around the cafe is also a nice study/work area and should be accessible to graduate students 24X7

## HOLIDAY SEASON REMINDERS

If you are leaving the house for the winter break, here are some reminders:-

- Please be sure to close and secure windows and doors and leave the heat on at a low setting so that pipes do not freeze.
- Discard perishables and keep your refrigerator plugged in.
- Inform yourself about what the Yale Health Plan covers when you are not in New Haven.
